

Knowing without  
Understanding  
*A Defense of Inexplicable AI*

David Weinberger Ph.D.

Harvard Berkman Klein Center

Oct 13, 2023

# A-B Testing

Non-linear causation

Chaos

Theory

Butterfly effect

Inexplicability  
is normal

AI benefits from  
everything affecting  
everything else

AI works by ignoring  
everything that we  
know

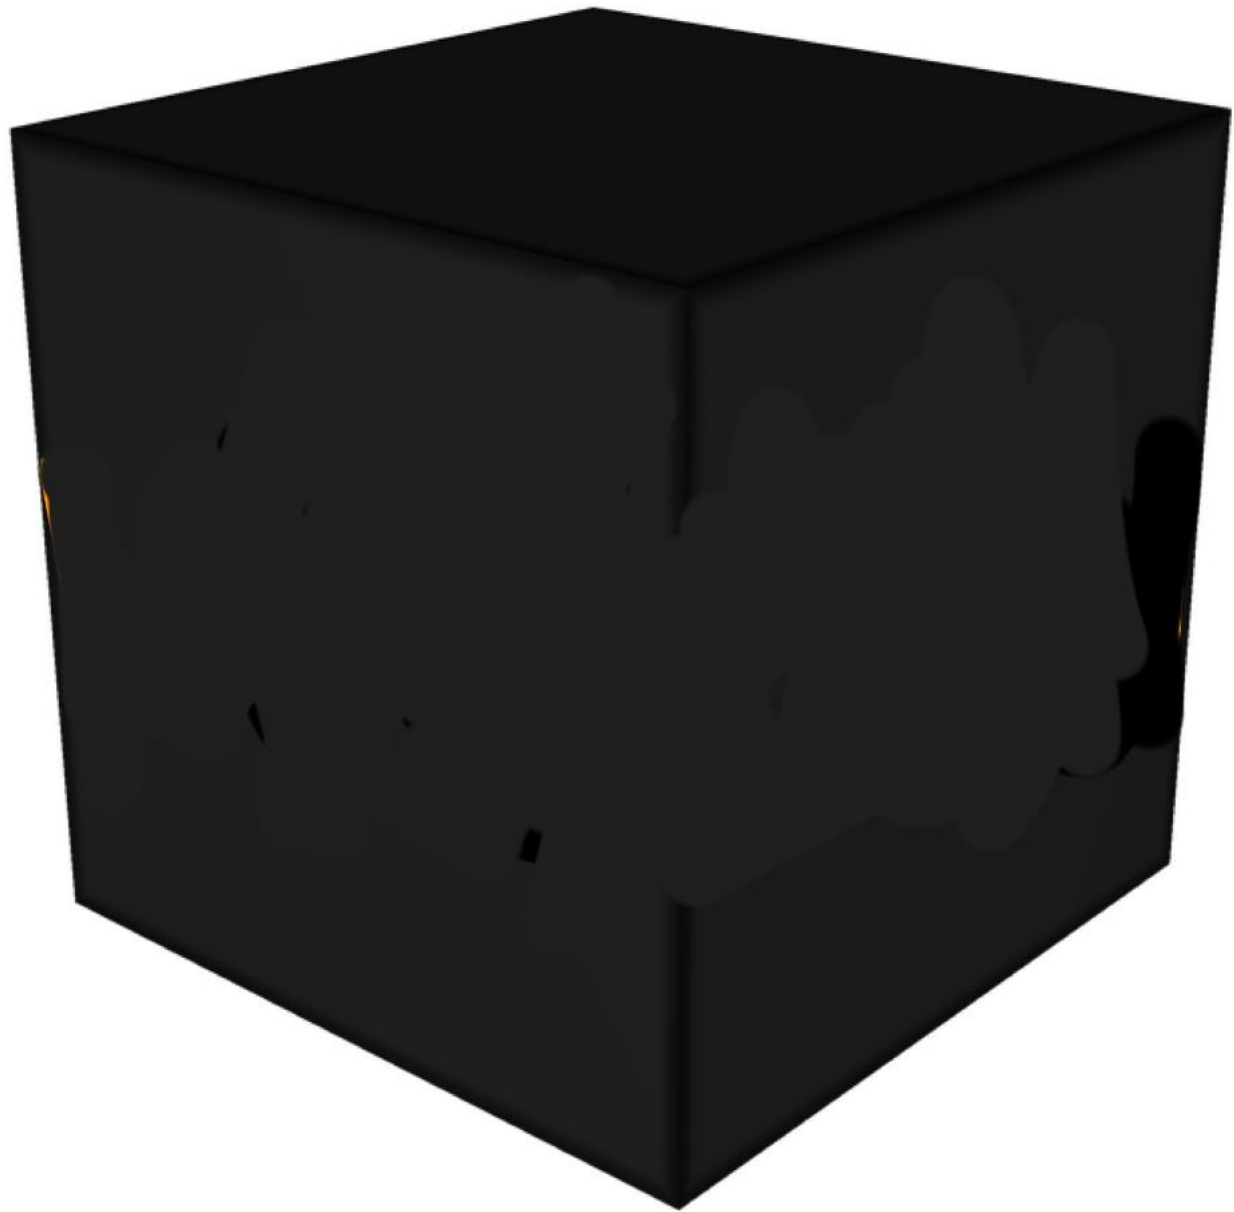

Yay for

explicitability!

BIAS

Your next  
doctor's  
visit

“We don’t  
know how  
it works!”

Strategy

A network  
of sensors

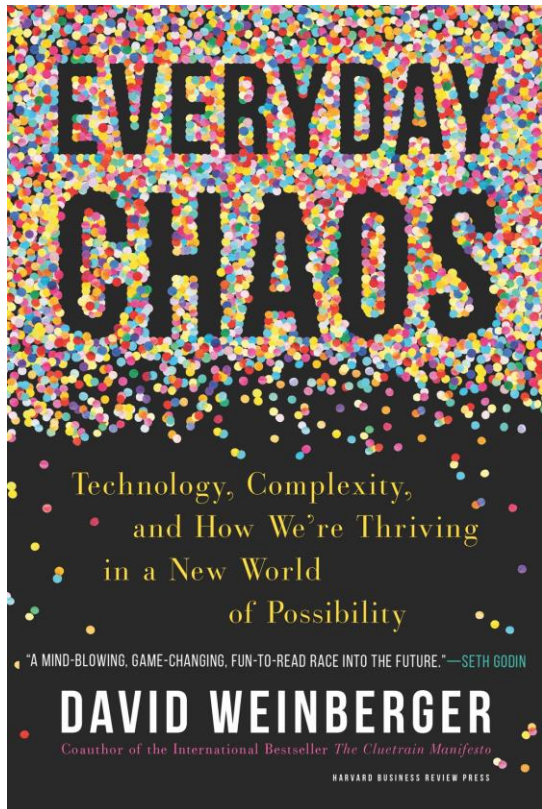

Two reasons to  
embrace  
inexplicability and  
chaos

Success

Truth

# Thank you.
